## MM 19 Project - Hexalicious by Liz Dunne

Hexies are sexy - at least if you're a quilter! We adore the look of hexies, but they are a labour of love. Unless you can take shortcuts that give you great results without any hand stitching or y-seams, which is what Liz Dunne of Made In Ireland Quilts has done with her striking quilt project, Hexalicious, available in [Issue 19](#) of Make Modern. And as a bonus, the expanse of solids is the perfect canvas to showcase intricate free motion quilting, which is always a bonus!

BY LIZ DUNNE

If you adore hexagons but don't love English Paper Piecing or the dreaded Y seam, then this pattern from MM Issue 19 is the perfect solution! Available for instant download now!
